

# PRESS RELEASE

## Hellberg SAFE Face Protection

Hellberg Safety specialist PPE products include highly advanced hearing protection products, face protection and communication solutions for personal wellbeing on site.

Hellberg's SAFE face protection range offers visor solutions to suit a variety of different internal and external work environments. With a standard product design across all the products, the visors and carriers can be

combined with hearing protectors and safety helmets for more complete solutions, or be used as individual visor solutions.

These stylish products give you a multiple options that all fit perfectly together. Choose one of our ready-made combinations, or select your own combination of carrier, visor and hearing protector.

Everything is really well made, comfortable to wear and delivers superb, practical protection for the hazards you're likely to face - whatever job you're doing.

The Hellberg Safety PPE range features the latest advanced technologies, modern design, comfort and quality together with great performance to appeals to all types of professional users in high-risk work environments.
