PRESS RELEASE

NEW from Solid Gear – the Onyx Safety Shoes and Boots.

Great value safety footwear with the unique BOA closure system for maximum comfort.

Nowadays, good safety footwear is part and parcel of a comfortable day's work on site – just like good working clothes and quality hand tools.

Combining maximum comfort and protection with a robust and durable design, Solid Gear's Onyx is available as a shoe or a boot and ideal for different types of on-site work.

This EN-accredited footwear has a modern-looking style that integrates a seamless upper and Cordura reinforcements with a poured polyurethane midsole, a breathable footbed and strong rubber outsole for maximum grip on slippery and uneven surfaces. Metal-free protection comes from the fiberglass toecap and penetration board for extra personal safety.

What's more, the unique BOA Closure System – used on many top-brand sports shoes - distributes the pressure of the fastened shoe evenly across your feet to ensure a glove-like fit all day for maximum comfortable protection.

To get more information on Solid Gear - the Next Generation of Safety Footwear - visit the website at www.solidgearfootwear.com alternatively, call the Hultafors Group UK Helpline on 01484 854788.
