

## Starting Your CMMS Search? Ten Questions You Need To Ask

<https://www.ssginsight.com/resources/10-questions-ask-cmms-search/>

So, you've decided that your organisation needs a CMMS; you know the problems that need fixing and you know what to do to solve them.

But before you start looking for a solution, there are ten questions you first need to ask in your CMMS search - including four vital stages you need to consider:

Establish your requirements

Search and select your supplier

Implement the system

Consider helpdesk support & future development of the CMMS

You can discover these four stages, and the top 10 questions you need to ask that addresses all of them, by downloading our insight report.
