

Cantilever Racking

Stakrak Limited are now supplying **Cantilever Racking** which maximises storage capacity, accessibility and presentation of large items. It is a flexible, bespoke solution that can provide high returns on investment through increasing productivity and easier stock management. From timber packs, to piping, to scrap vehicles, we have a racking solution for you.

This type of racking is also customisable, can come painted or galvanised, and will save you time and space. It can take up to 30 tonnes per upright, and up to 2 tonnes per arm giving you maximum flexibility. **Available to order now on:-**
