Scruffs is committed to kitting out trade professionals in workwear that works as hard as they do.

As the thermometer rises over the coming months, we know how important it is to stay cool and comfortable when working in a physically demanding profession.

The latest addition to the Scruffs collection, the Trade Active Polo, is designed to be lightweight and quick-drying, and comes in two stylish colours: Black and Graphite.

With an innovative design that includes incorporated mesh panels for improved breathability and a raglan sleeve for improved comfort, you'll keep your cool when work gets tough during the hottest days.

A smart button placket with collar and a dropped back hem ensure a comfortable fit and a smart look throughout the day and after work. The polo also includes a blank left chest, perfect for company profiling.

Engineered with the latest workwear technology, the Trade Active Polo is durable and hard wearing for a wide range of trade and industrial environments, and smart enough to wear for after-work drinks.
