

Technical Training

FOR RELEASE:

By Matthew Slater

November 4th, 2016

Warrington, UK- We are pleased to announce that Schwer Fittings Ltd are making moves in the right direction to provide experts and individuals alike, with the knowledge needed to progress in the industry. Grasping new opportunities we have agreed and welcome, in conjunction with the BFPA, anyone with vested interest to use the state of the art training facilities that Schwer Fittings Ltd have to offer.

After fantastic response from the old training programs and training facilities, Schwer Fittings Ltd decided to revamp their whole operation, and introduce unrivalled equipment and machinery in order to create the best working environment for the individuals interested in learning.

We look forward to working increasingly closer to the BFPA and the individuals interested in our services, and generating closer relationships with both. Courses are available regularly and can be worked around times appropriate to specified time slots. Our staff are on hand and have bumped up their game to make our courses and your time here a great learning experience and an enjoyable one.

Courses are available through the BFPA Training Academy Website, or can be organised through our own operations here at Schwer Fittings Ltd. For those interested in getting involved in an incredible learning experience should contact: info@schwer.co.uk

Or for more information on our courses, go to: <http://bfpatrainingacademy.co.uk/approved-training-facilities/>

We look forward to hearing from you!
