Mecaline pneumatics product range available exclusively from Brammer Buck & Hickman

Brammer Buck & Hickman, the UK's leading supplier of industrial maintenance, repair and overhaul (MRO) products and services, has expanded its exclusive Mecaline brand to pneumatics, offering customers over 3000 product lines.

Mecaline is recognised in the UK for its mechanical and power transmission products, but across Europe this brand is also well known for its pneumatics product range. Due to popular demand, the Mecaline pneumatics range has now been made available in the UK, providing customers with pneumatic products that combine quality and reliability, backed by Brammer Buck & Hickman's extensive engineering expertise and added value services.

Designed in collaboration with world-leading manufacturers in their respective fields, to very strict specifications, the Mecaline pneumatic range includes hoses and fittings, couplings, tubing, cylinders, valves and a full range of accessories. Every product has been designed and manufactured to meet exacting industry standards and deliver cost-effective long product life.

Mecaline pneumatics products are interchangeable with leading brands, ensuring that replacement or modification is swift and easy while reducing downtime associated with time spent trying to find the right parts for your application.
