PRESS RELEASE

Hellberg Safety – The Most Complete Range of Hearing Protection Solutions

The new and improved technology throughout the Hellberg Safety communications product range delivers the most advanced protection.

Hazardous work environments demand effective and reliable communication between people. Sometimes you need to talk and sometimes you just have to listen. With a range of up to 3km the new Hellberg Local hearing protector and communication headset makes it easy to talk to with colleagues - without the hassle of taking off your ear defenders.

It's just one PPE solution in a wide range of Eye, Face, Hearing and Communication solutions that have been developed and independently tested in "real-life" situations for optimal performance to deliver products

that are comfortable and reliable in any risk environment.

The SECURE series features multi-functional and foldable passive ear defenders available in 3 protection levels to advanced electronic communication solutions.

SECURE ACTIVE allows you to communicate with your colleagues, hear warning signals and other important information while protected from hazardous noise. SECURE RELAX protects your hearing while you enjoy listening to your favourite radio station, while SECURE REACT and the including the cutting edge Xstream products allow you to listen to AM/FM radio and communicate with your colleagues while still being protected from harmful noise.

The SAFE face protection and eyewear range offers customised visors and eyewear solutions for protection against a variety of hazards. They're all ergonomically designed to be practical and effective and are fully compatible with the SECURE system.
