## Press release

January 2018

Ref: HK/300

### **NEW HYBRID, EMERGENCY REPAIR ADHESIVE FOR HIGHLY DURABLE BONDS**

New to Henkel's LOCTITE® Universal Structural Bonding range is LOCTITE® HY 4060 GY, a five-minute-curing, general-purpose repair adhesive for a wide variety of metals, plastics, wood and rubber materials. What makes this product so special is Henkel's patented hybrid technology that, as well as providing universal adhesion, achieves a fast cure through a large gap, excellent structural and environmental durability. It also has enhanced safety credentials.

Clearly faster fixturing means greater productivity, an important benefit to maintenance engineers seeking efficiency gains from the products and systems they use. As LOCTITE® HY 4060 GY cures so quickly, in a wide range of operating conditions and even at low temperatures, it is the ideal choice for fast and effective repair. It also has good gap-filling ability – up to 5mm - and provides excellent resistance to moisture, temperature extremes and chemicals.

LOCTITE® HY 4060 GY is a true universal structural bonding adhesive, a single product suitable for multiple applications that eliminates the need for a choice of products to meet all maintenance bonding needs. And by comparison with its nearest competitor LOCTITE® HY 4060 GY offers significant advantages for multi-substrate bonding and far greater durability at elevated temperatures.

This is an excellent general maintenance product that is particularly effective where a fast fixture is required on structures with variable gaps and mixed substrates. Typical applications range from bracket bonding and cable tie installation to the repair of plastic clips and lugs and the surface rebuilding of plastic and metal parts. LOCTITE® HY 4060 GY is supplied in a 25ml, ready-to-use pack.

For more information on the new LOCTITE® Universal Structural Bonding range and Henkel's patented hybrid technology go to: [www.loctite.co.uk/limitless](http://www.loctite.co.uk/limitless)

#### **About Henkel**

*Henkel operates globally with a well-balanced and diversified portfolio. The company holds leading positions with its three business units in both industrial and consumer businesses thanks to strong brands, innovations and technologies. Henkel Adhesive Technologies is the global leader in the adhesives market – across all industry segments worldwide. In its Laundry & Home Care and Beauty Care businesses, Henkel holds leading positions in many markets and categories around the world. Founded in 1876, Henkel looks back on more than 140 years of success. In 2016, Henkel reported sales of 18.7 billion euros and adjusted operating profit of 3.2 billion euros. Combined sales of the respective top brands of the three business units – Loctite, Schwarzkopf and Persil – amounted to more than 6 billion euros. Henkel employs more than 50,000 people globally – a passionate and highly diverse team, united by a strong company culture, a common purpose to create sustainable value, and shared values. As a recognized leader in sustainability, Henkel holds top positions in many international indices and rankings. Henkel's preferred shares are listed in the German stock index DAX.
