

Super Duty 1-1/2" Impact Wrench from Chicago Pneumatic!

The CP6120 Series

With a special 2-jaw clutch they offer the user an unbeatable combination of power and ergonomics!

There are two models, **CP6120-D35H** (Square drive version) and **CP6120-D35L** (spline #5 drive version) delivering a maximum torque of 4880 Nm, the lateral vibrations are extremely low. With robust steel housing and aluminium motor housing they are very durable. Designed for operator comfort and flexibility they have comfort handle, adjustable side support handle and inside /outside trigger options as the parts for this are supplied with the tool. Another great feature is they can be changed to forward biased by turning the air motor cylinder around.
