## Press release

Ref: HK/450f  
Date of issue: July 2021

### UNIVERSAL, BIODEGRADABLE CLEANER AND DE-GREASER

New from Henkel is a sustainable, eco-friendly cleaner and degreaser whose wide scope of application makes it highly cost effective. LOCTITE® SF 7840™ is water-based, solvent-free, non-toxic and non-flammable and can be used to soak, pressure wash, spray or wipe.

Supplied as a concentrate, this biodegradable product is diluted with water in accordance with the substance being removed and type of surface being cleaned. So, dependent on the dilution level, LOCTITE SF 7840 can be used for heavy cleaning and degreasing of engines, motors, castings and dip tanks as well as less demanding tasks such as cleaning concrete floors, work areas, windows, walls, furniture and counter tops.

As a general purpose, biodegradable parts cleaner and greaser, the product is primarily formulated to tackle grease, oil, cutting fluids and workshop grime but it is also good for removing many other substances such as tar, road salt, food stains, wax, animal fat, mildew and soot.

LOCTITE SF 7840 is available in 5l and 20l pack sizes as well as in a 750ml spray bottle. The product works optimally when used with hot water.
