## **C.K Magma Launches its Exciting New Wheeled Rucksack Plus**

Following the successful ongoing development of its award-winning wheeled tool case derivatives, C.K Magma has taken the logical step of expanding its popular rucksack range with the exciting addition of the **Wheeled Rucksack Plus (MA2654)**. This innovative lightweight and compact tool storage solution is ideal for tradespeople using public transport for travelling to their place of work, or for those who need to access places where climbing and a hands-free approach is needed.

C.K Magma's regular research and feedback from trade professionals has helped to evolve its tool storage range, which offers great insight into what works best to make tasks that much easier. This is evident with the continued evolution of its innovative wheeled tool case options, which provide the best quality and efficient portable tool storage solutions. With that in mind, the new Wheeled Rucksack Plus combines all the fantastic features of C.K Magma's rucksack tool storage, together with the advantage of a lightweight and durable wheeled chassis, with a telescopic handle for the easy and convenient transporting of tools.

The product's compact size and lightweight design, cleverly incorporates a whole host of other features and benefits including: A spacious main compartment; Vertical storage pockets for easy tool access; 39 pockets and holders including space in the base for larger tools; Extra comfort padding at the back with storable shoulder strap; Padded front storage pocket for iPad/Notepad, additional hand tools and documents; and a Removable Wheel cover to protect clothing.

Hardwearing, strong and durable, C.K Magma's wide range of cutting-edge tool storage products are built to protect and organise valuable toolkits, with great features and benefits designed to suit everyone's needs. The new C.K Magma Wheeled Rucksack Plus is no exception and is the perfect solution for professional tradespeople looking for a quality mix of wheeled and hands-free on back carriage for easy and convenient tool transportation.
