New Kasp Catalogue for 2021 - Packed Full of Exciting Products

Leading security brand Kasp at Carl Kammerling International is delighted to announce the launch of its 2021 catalogue. Available to download now, the Kasp catalogue includes an unbeatable range of premium quality padlocks and security products. Reassuringly renowned for being locks you can trust and precision engineered from premium grade materials, Kasp locks are ideal for a wide range of applications.

Kasp Catalogue Highlights

The 2021 Kasp catalogue has been specifically designed to ensure that all the information needed is easily accessible, with more data and a great range of images to aid selection of the correct product. From an exciting range of new and existing products, to a whole host of other services, the Kasp catalogue provides a one stop shop to fulfil everyone's security needs.

Thanks to the Kasp security selection system, the security level of each product is clearly highlighted (High Security, Medium Security or Low Security), to further help with product choice.

Details of the Kasp Service Centre and its wide range of services can also be found in the new catalogue. This includes express key cutting, padlock cloning, keyed alike suites, to more complex master keyed systems. Ordering is simple, too, with an average delivery time of just 2-3 days.

Download your copy now from www.kaspsecurity.com, or email sales@cki.uk.com for your own personal copy. If you would like a visit from your local territory sales manager please call us on 01758 704704.
