Rittal Limited

Date of issue: October 10, 2015

It's Not Just an Enclosure: Rittal's Cost-Effective Wall Box Solutions

Rittal, the leading global enclosure, climate control and power distribution specialists is promoting the benefits of its top-selling, cost-effective wall boxes, details of which can be found in the company's technical systems catalogue.

To call it a wall box however is something of a misnomer. Far from being simply a container for equipment, Compact Enclosures AE provide highly technical solutions to protect the valuable systems within. Their attributes and many benefits include corrosion resistance and a range of accessories for easy assembly as well as security and environmental.

The thinking and expertise behind many of these in-built innovations has been developed by Rittal over the last 50 years of manufacturing wall boxes. Its standard and special product ranges are now widely used in a range of industry sectors including construction, transport, manufacturing, and offshore sitings.

Notes

Rittal, headquartered in Herborn, Hessen, Germany, is a leading global provider of solutions for industrial enclosures, power distribution, climate control and IT infrastructure, as well as software and services.

Systems made by Rittal are deployed across a variety of industrial and IT applications, including vertical sectors such as the transport industry, power generation, mechanical and plant engineering, IT and telecommunications.

Rittal is active worldwide with 10,000 employees and 58

subsidiaries.

Its broad product range includes infrastructure solutions for modular and energy-efficient data centres with innovative concepts for the security of physical data and systems.

Leading software providers Eplan and Cideon complement the value chain, providing interdisciplinary engineering solutions, while Kiesling Maschinen-technik offers automation systems for switchgear construction.

Founded in Herborn in 1961 and still run by its owner, Rittal is the largest company in the Friedhelm Loh Group.

The Friedhelm Loh Group operates worldwide with 18 production sites and 78 international subsidiaries. The entire group employs more than 11,500 people and generated revenues of around €2.2 billion in 2014. For the seventh time in succession, the family business has won the accolade "Top German Employer" in 2015.
