

NEW WEBSITE OFFERS SIMPLE SOLUTION TO SOURCING SECURITY CAGES

The UK's leading supplier of **Security Cages** is pleased to announce the launch of **securitycagesdirect** a new comprehensive website which streamlines the specifying and buying process for a wide range of security cages. Developed by **Stakrak Ltd** www.securitycagesdirect.co.uk is the result of 25 years of experience in designing, specifying and supplying static and mobile mesh cages.

The comprehensive, yet simple, easy-to-navigate website features a wide range of products and solutions for all secure storage applications. Options include mobile cages, gas cylinder cages, mesh security cages, multi-purpose cages and much more.

Most of the cages are manufactured in the UK to the highest standards and are finished with either a durable protective powder coat or galvanised finish to withstand the elements. **Delivery to UK mainland addresses is free and the majority are supplied flat-packed, ready for easy construction.**

Although the standard range of cages featured on www.securitycagesdirect.co.uk covers most requirements, specials or bespoke cages can be manufactured to a size and specification to suit more specific requirements. The web site also includes an extensive FAQ section which provides buyers with a breadth of useful information to help them to specify and order the best security cage solution for their application.
